

TB-109

Track Bar Bushing Kit For Ram Trucks

Front
 Suspension

2 piece design
 bushings allow for
 easy installation.

(1 Kit)
 Per Vehicle

The Problem Eliminator!

Improved 2 piece design eyelet bushings install easily without any special tools. The OE bushings are not available separately, you have to purchase a complete new track bar which can be very expensive. The main parts which wear out are the eyelet bushings. RAMCOA's improved design eye bushings will take the punishment from on or off-road use.
